Summary

Computer Science undergraduate passionate about Full Stack Development, Artificial Intelligence, and Automation. Experienced in building real-world projects using React, Node.js, MongoDB, and n8n workflows. Strong foundation in Data Structures, problem solving, and software development.

Education

2024 – Present	**BTech in CSE at SRKR Engineering College, Bhimavaram** (GPA: 8.78)	
2024	Class 12th, Aditya Junior College, Palakol	(Percentage: 96)
2022	Class 10th, Montessori's English Medium School, Ullamparru	(Percentage: 88.3)

Projects

Mood Based Quote Generator

Built a web application using HTML, CSS, and JavaScript that generates random quotes based on the user's selected mood, with favorites and quote history features.

Smart Grievance - AI-Based Grievance Registration & Assistance System

Developed an AI-powered grievance registration system enabling citizens to submit complaints through voice or text in Telugu and English. Integrated AI-based speech transcription, grievance categorization, priority detection, and department routing, with automated grievance letter generation and officer review workflows.

Decision Making Spinner

Developed a web application using HTML, CSS, and JavaScript featuring a dynamic spinning wheel, customizable options, and smooth animations to help users make random decisions.

AI Hackathon Team Matcher

Created an AI-powered automation system using n8n and Gemini API to analyze participant skills and generate balanced hackathon teams automatically.

Skills

Languages	Java,Python, C, JavaScript
Core CS Concepts	Data Structures, Algorithms, OOP, DBMS, Operating Systems, Debugging
Web Technologies	HTML, CSS, React, Node.js, MongoDB
Tools	GitHub, VS Code
Soft Skills	Problem Solving, Analytical Thinking, Team Collaboration, Leadership, Communication, Adaptability
Interests	Artificial Intelligence, Research-driven Software Development, Automation Systems

Achievements & Certifications

- Secured Second Prize in SAMAGRA 2K26 for presenting research on Prompt Engineering and Artificial Intelligence applications.
- Completed IDE Bootcamp 2026, developing innovation, entrepreneurship, and prototype-building skills through collaborative problem solving.
- Built technical solutions in HackOverflow 2K25 and Prajwalan 2K26 National Level Hackathons using programming and software development skills.

Extra Curricular Activities

- Participated in Language Nest activities to improve communication, public speaking, and interpersonal skills.
- Collaborated with teams during TEDx event organization, developing communication, coordination, and teamwork skills.
- Maintained active GitHub profile through projects and consistent learning.
